

URGENT---REGARDING THE DEADLY H1N1

Dear Respected Member of Congress,

We pray this message finds you in a state of calm reserve. In light of the sheer gravity and number of systemic issues now facing our planet, we respectfully invite you, in your role as accountable decision-making public official, to pay heed to the message that awaits you at **www.TheShotHeardRoundtheWorld.info** Originally broadcast on Friday, September 11, 2009 to many of your respected colleagues, this has proven the most effective way to voice the following concern of millions of intelligent global citizens to thousands of public officials around the world:

Government-enforced H1N1 influenza vaccination is part of a global genocidal depopulation agenda generated by a bank-based international corporate crime syndicate intent on gaining full and complete control of humanity by first culling up to 90% of it with a deadly vaccination program while enslaving the remainder of it. Their heretofore hidden hand has been clearly shown in the recent engineered collapse of the global economy and now they are poised for the next step on the agenda--- human decimation and complete chaos potentially spiralling into bloody civil wars. We understand many minds will jump to the pre-programmed response of “this is conspiracy theory nonsense,” but we assure you this is all too horrifically real and we have a mountain of proof to show you. With your help we can stop this, maintain peace, and avert a human catastrophe like nothing seen in modern history.

If, instead, you choose to turn your face away and allow this evil to be done on your watch without at least investigating the abundant credible evidence that we will provide you, then we as sentient, caring souls will have no choice but to hold you complicit in these plans and therefore hold you personally and criminally liable for any damage caused by the lethal vaccination program that is slated to occur within your jurisdiction.

There need be no conscious criminal intent on your part to be so implicated, for manslaughter and malfeasance are both legally defined as gross negligence, whether personal or public. Need we remind you of the Nuremburg trials? ---“We were only following orders” doesn’t serve as a valid defence.

We understand it is probable that you are not prepared for what may befall your community, your family and all those you cherish if you do not now take a courageous stand with us, and at the very least, be willing to listen to the long-censored other side of this story from which you may have long been insulated, not only by your time in public office, but by commercial communications media which has long been controlled by that same hand as would now strike in secret against us all.

The peoples of the world anxiously await your response to the crucial and timely message that awaits you at **www.TheShotHeardRoundtheWorld.info** as well as your action plan to put an immediate stop to this within your jurisdiction. We are likewise eager to coordinate with you in any way to protect our communities from this potentially horrific assault. Therefore, we seek to offer you, along with this vital information, our collective will and courage to do that which is right, just and compassionate for all life on this planet. Call on us and we will respond.

In Truth and Justice,
The Concerned Global Citizens of the World.
